

## Cooperating Technical Partners – ASFPM CTP subcommittee Monthly Call – April 8, 2021

Attendees: Alan Lulloff, Brooke Seymour, and Dave Knipe

### Region – CTP involvement

How best to support Vermont's efforts to become a CTP was discussed. Alan received some information from Nicolle Maccherone on the amount of CTP funding allocated by region. Region I stands out as having no CTP funding. Brooke suggested that some talking points be developed highlighting the benefits of establishing partnerships with states and regional entities. These talking points could be used in discussions with other states in the region and with Congressionals. A starting point could be the CTP snapshot. One of the reasons for developing the snapshot was to share with Congressional representatives.

Brooke has some data that is a bit different from the listing provided by Nicolle. We discussed the need to ensure the data is accurate and to make sure it is made available to those interested. If it is widely available it could help regions (e.g. Region I) to more actively engage the CTP program.

### Webinars:

Dave indicated that he is available to present on their project cost estimating tool for a webinar in June. Alan will check with Laura regarding her interest in presenting on mitigation grants via the ASFPM webinar series.

### M&ES committee

Dave and Maria recently discussed that it would be useful to have a Mapping & Engineering Standards committee meeting after the ASFPM conference. They are thinking of sending out a brief "Hey what is on your mind" questionnaire prior to the conference.

The M&ES committee is preparing a year end summary for Carey Johnson. He would like to include a summary of the ASFPM CTP webinar series.

### Risk Rating 2.0

There was some discussion on how projects implemented to reduce flood risk will be incorporated into the flood insurance rating process. It was felt that there likely will be a way to modify the flood insurance rate based an elevation certificate and/or other detailed data associated with the property. Larry recently sent out an email that included some information provided by Bruce Bender. We will ensure that the subcommittee is provided with the email. [done]
